ABOUT THE CLASS ...

This seminar offers the latest information and techniques in homicide investigations and is an *ideal program for Homicide Detectives and Investigators, Prosecutors, Major Crime Task Force Members, Evidence Technicians and First Response Teams.*

This course will cover the types of techniques necessary in order to develop leads, identify potential suspects, and effectively interview those responsible. The program will focus on a diverse combination of homicide cases. *This course will provide strategic tactics in the apprehension and prosecution of the offender(s).*

This focus of the seminar will provide the investigator with the tools necessary to conduct death investigations. Using actual investigations, the participants will work through cases from the moment of arrival until its conclusion. *This program offers tips and methods to successfully close cases.*

Discussion topics include talking about the mental state of a suspect and how it impacts the solvability of a homicide, the differences between how homicides use to be investigated and solved, versus today's investigations and how technological advances have expedited this process.

Discover all of the tools and resources available to law enforcement today that most Police Officers are not even aware exist.

ABOUT THE SPEAKERS ...

The advantage of this seminar can be found in its speakers.

Each class brings together two disciplines, one from a seasoned homicide detective, the other from a highly skilled prosecutor. Working together in concert, this unique combination blends practical street smarts and courtroom know-how.

As experts within their respective fields, the speakers remain active in both the investigative and legal communities. They are regularly sought after to participate in jury trials involving major crimes, homicide prosecution and violent crimes, some of which involved the most high profile and complex cases in Illinois history. In addition, they function as vital contributors to various Major Crime Task Forces and associations.

SEMINAR TOPICS TO INCLUDE:
Crime Scene Investigation
Cause & Manner of Death – Autopsy
Handling the News Media
Investigative Tactics
Legal Aspects
Development of COLD CASE Leads
